

Leo Precision

PROFITABLE PACKAGING SOLUTIONS

www.leopp.in

We at **Leo Precision** are committed to achieving Customer delight by providing Profitable Packaging Solutions. Aiming to provide Molds that are comparable to best in class at cost effective rates with high focus on timely delivery.

With more than **'25 Years'** experience in mold making and after decade of existence, Leo wants to be most sought-after mold maker in the field of Single Stage, Preform and Caps & Closures. From concept to Production Molds, we are one stop solution for Packaging Industry.

With growing demand, we are continuously enhancing our World Class production capabilities and capacities on regular basis. Our Belief in a strong team reflects in our pool of talent, which is best in our industry , attracted and retained by the work culture we have created.

We welcome you to experience **TEAM LEO**.

Leo Precision was established in the Year 2010 and has since steadily grown as one of the Top Tool makers in India. Manufacturing facility, located in Western India, is spread across 150,000 sq ft with 50 + State of the Art CNC machines and today stands tall with a team of over 250 employees.

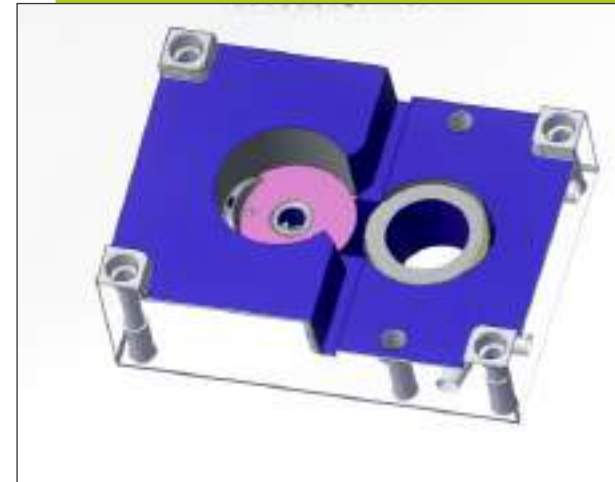

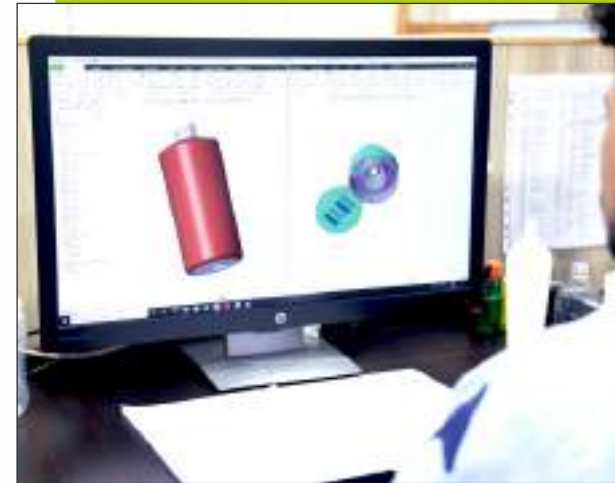

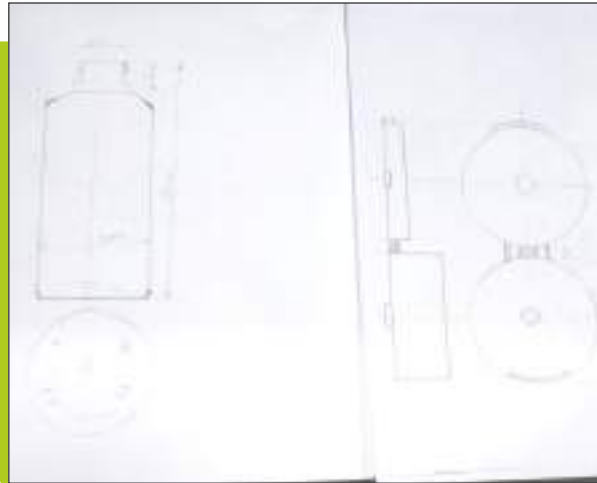

Today it offers Profitable Packaging Solutions to various Sectors. Our expertise includes PET Molds for both Single Stage and Two-stage technology coupled with solutions for the Caps & Closure industry, making us one of the few Tool Rooms to offer a one stop solution to the Packaging Industry.

It has extended its expertise of making Hot Runner Multi-cavity Molds, for Medical applications including, but not limited to, Blood Collection Tubes.

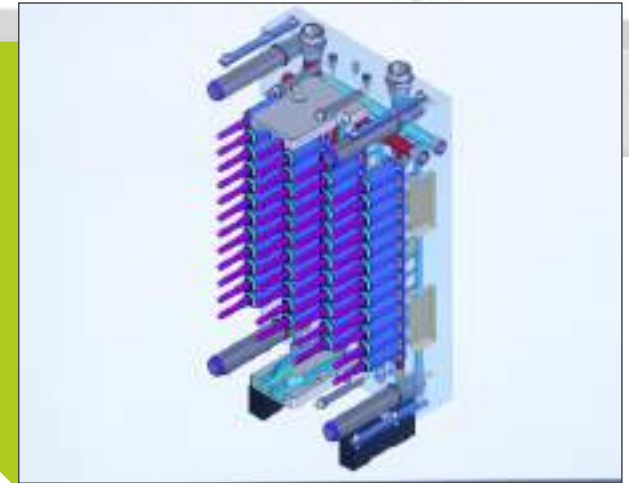

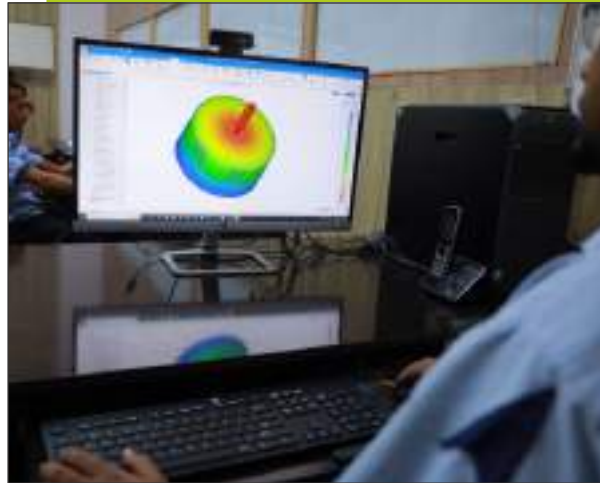

NEW PRODUCT DEVELOPMENT

Our expertise is in shaping your ideas. From concept to final Product design, we offer wide range of design services to our clients which includes proto-type molds.

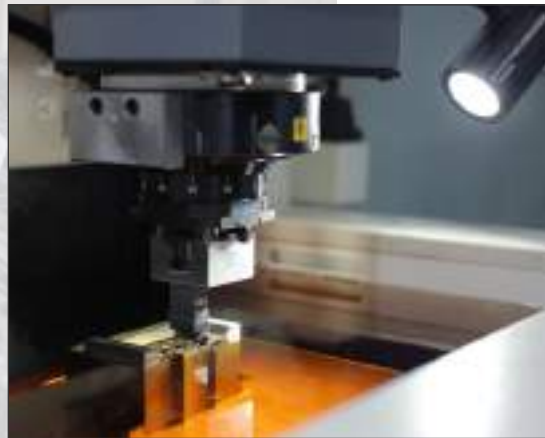

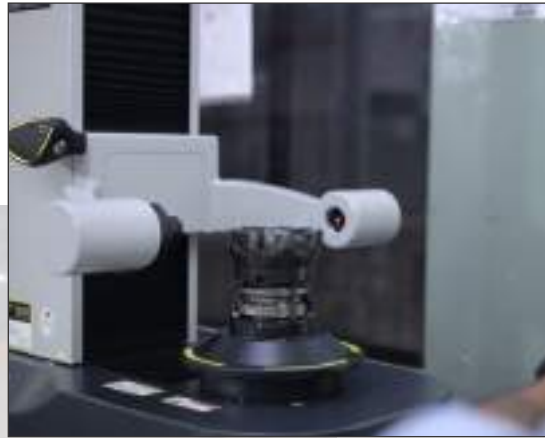

DESIGN & MOLD DEVELOPMENT

Leo believes that pursuit for Perfection begins at the Design stage only. Company has talented pool of Design engineers proficient in CAD/CAM software Solid Edge, SOLIDWORKS, Creo and other design tools. It deploys advance simulation software like Moldex3D for Melt flow analysis..

WORLD CLASS MANUFACTURING

Leo's Tool room is equipped with machinery with cutting edge technology from reputed global sources. The commitment for excellence and technological capabilities ensures highest levels of precision and process control at every stage thus ensuring Cavity to Cavity and Mold to Mold interchangeability of inserts.

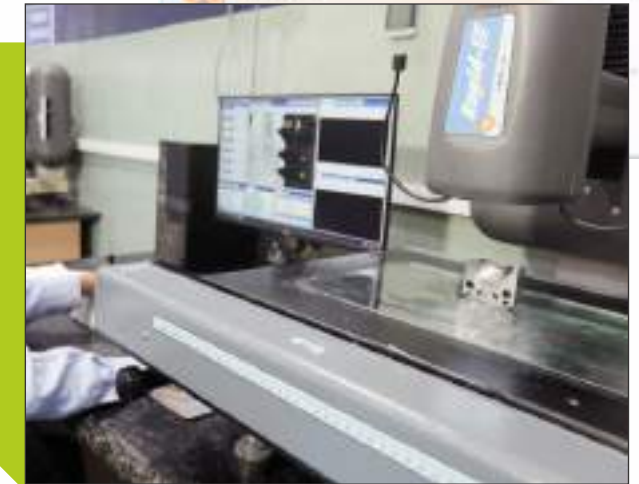

ASSEMBLY

Leo's team of well qualified engineers give the much needed human touch to the Mold and ensure the readiness of the molds in every aspect.

QUALITY CONTROL

Leo has a well-established Quality Control System which strictly manages the production process starting from Raw Material to the finished product. All Processes are continuously monitored and rigorous inspection is carried out at various stages to deliver best in class Quality Products.

MOLD TESTING FACILITY

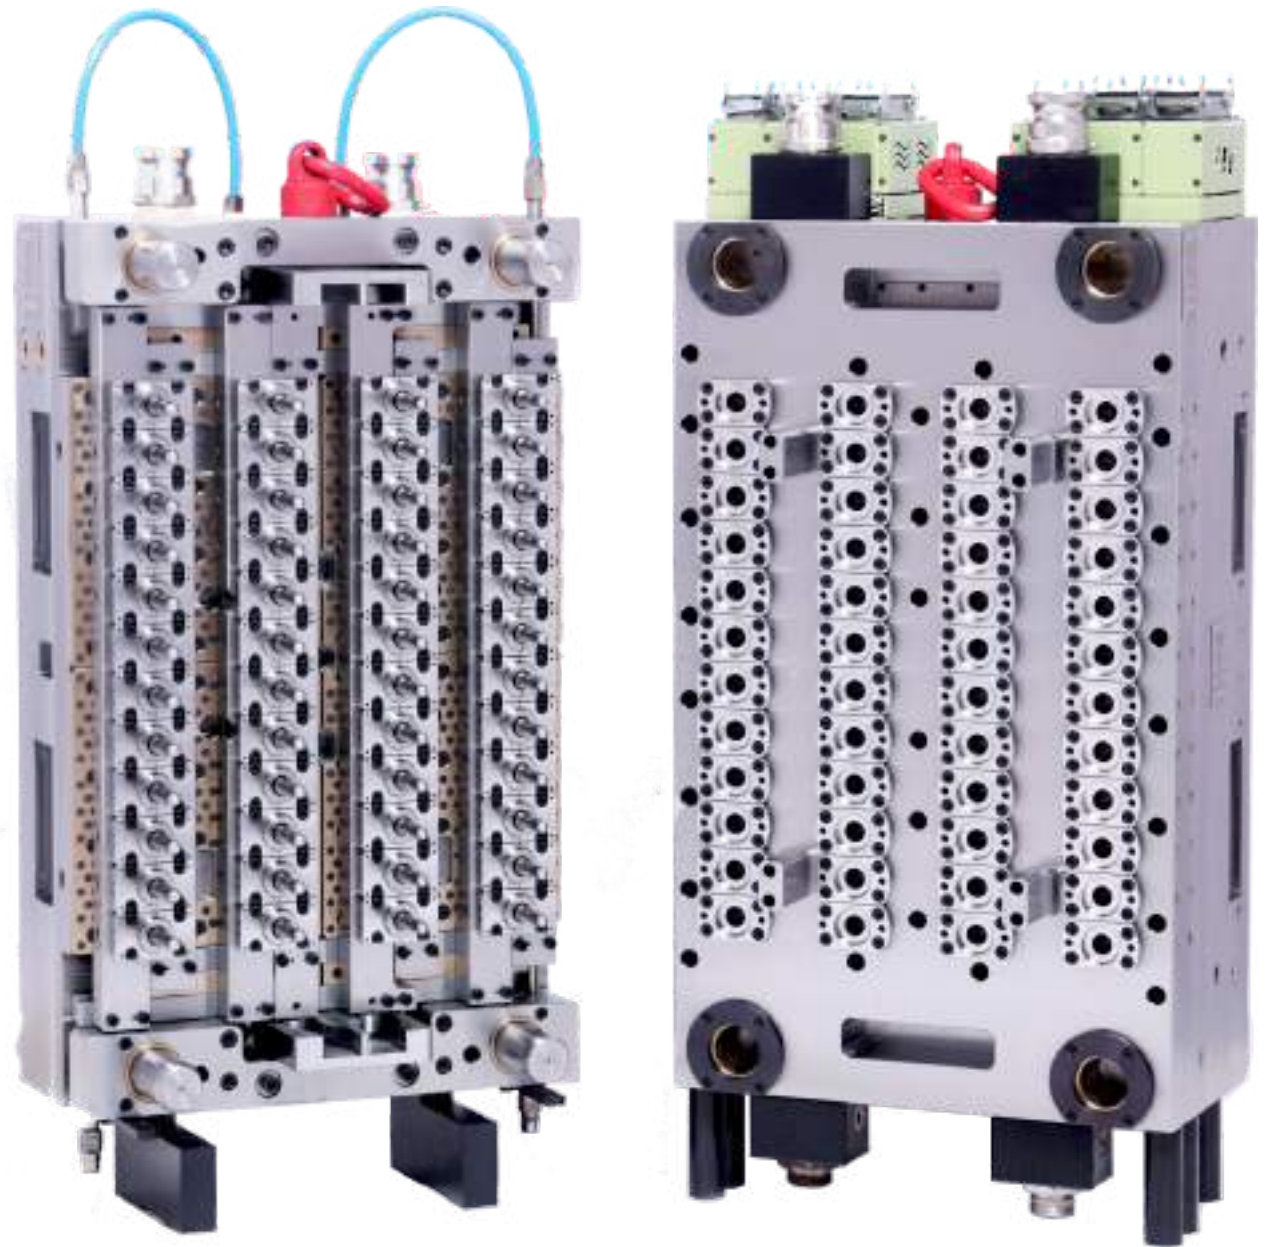

Leo's Mold testing facility is a reflection of its belief that commitment to Quality does not end with just making the Production Tool. All Molds are tested at in-house testing facility thoroughly and Factory Acceptance Test is carried out for each Mold so that customer gets highly stable, reliable and Production ready tool from day 1.

PRODUCT

FACILITY

PREFORM MOLDS

Leo offers Hot Runner Preform Molds up to 72 Cavity for both Narrow neck and Wide neck applications. Our Unique Hot Runner Design offers balanced and uniform material flow, Precise wall thickness control and Higher Productivity.

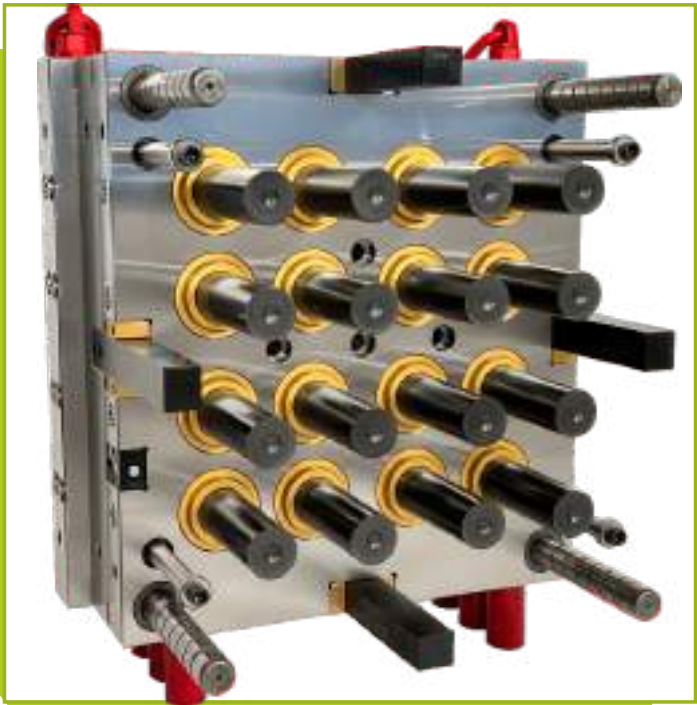

SINGLE STAGE MOLDS

For ISBM Machines

Leo Designs and manufactures
Molds for Single stage machines
manufactured by ASB & Others.
Our Micro Pitch Molds deliver
better cavitation and higher
productivity for the same machines.

CAPS & CLOSURES MOLDS

Leo Designs and manufactures Hot Runner Molds for the Caps & Closure Industry. Our expertise ranges from Molds with simple bump off caps, Flip Top Caps to complex molds with In Mold closing (IMC) and un-screwing Molds.

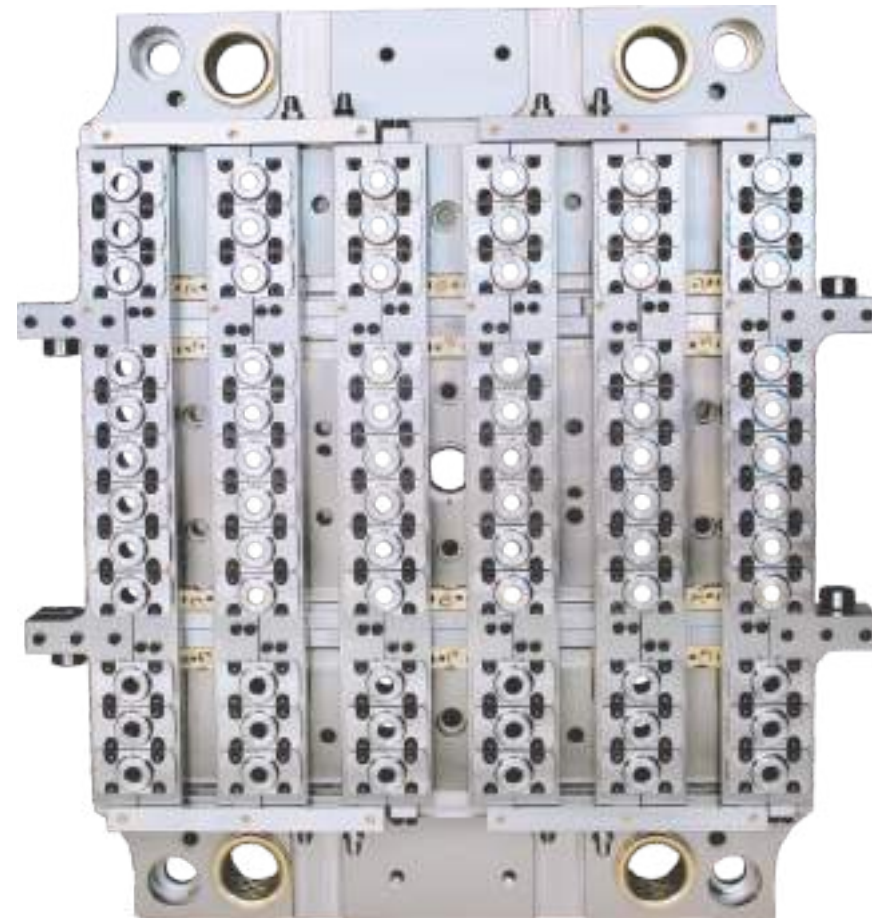

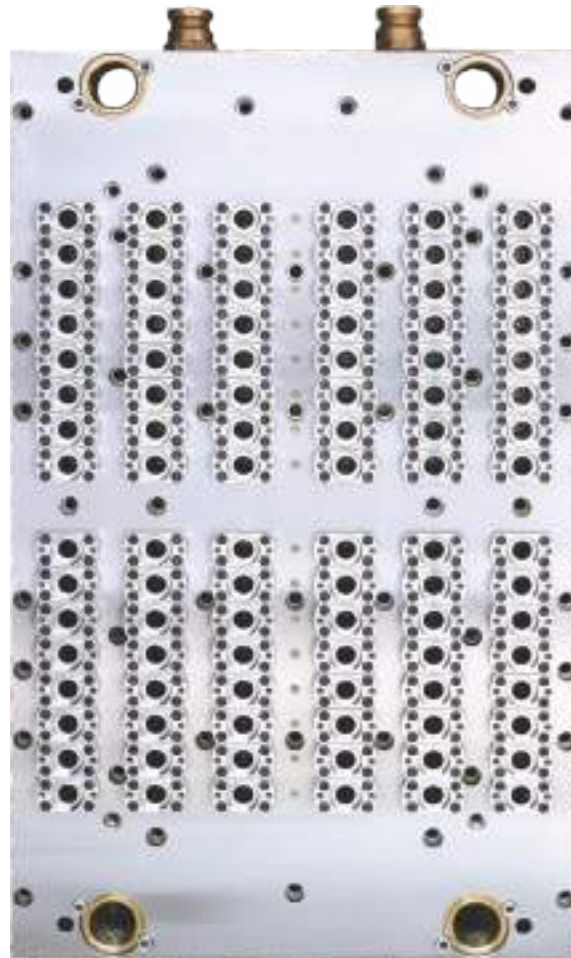

BLOOD COLLECTION TUBES

Leo is the pioneer in Blood Collection Tube Molds in India and the expertise of making High Precision multi-cavity Molds is now being extended to other Plastic Medical Parts.

PREFORM MOLDS

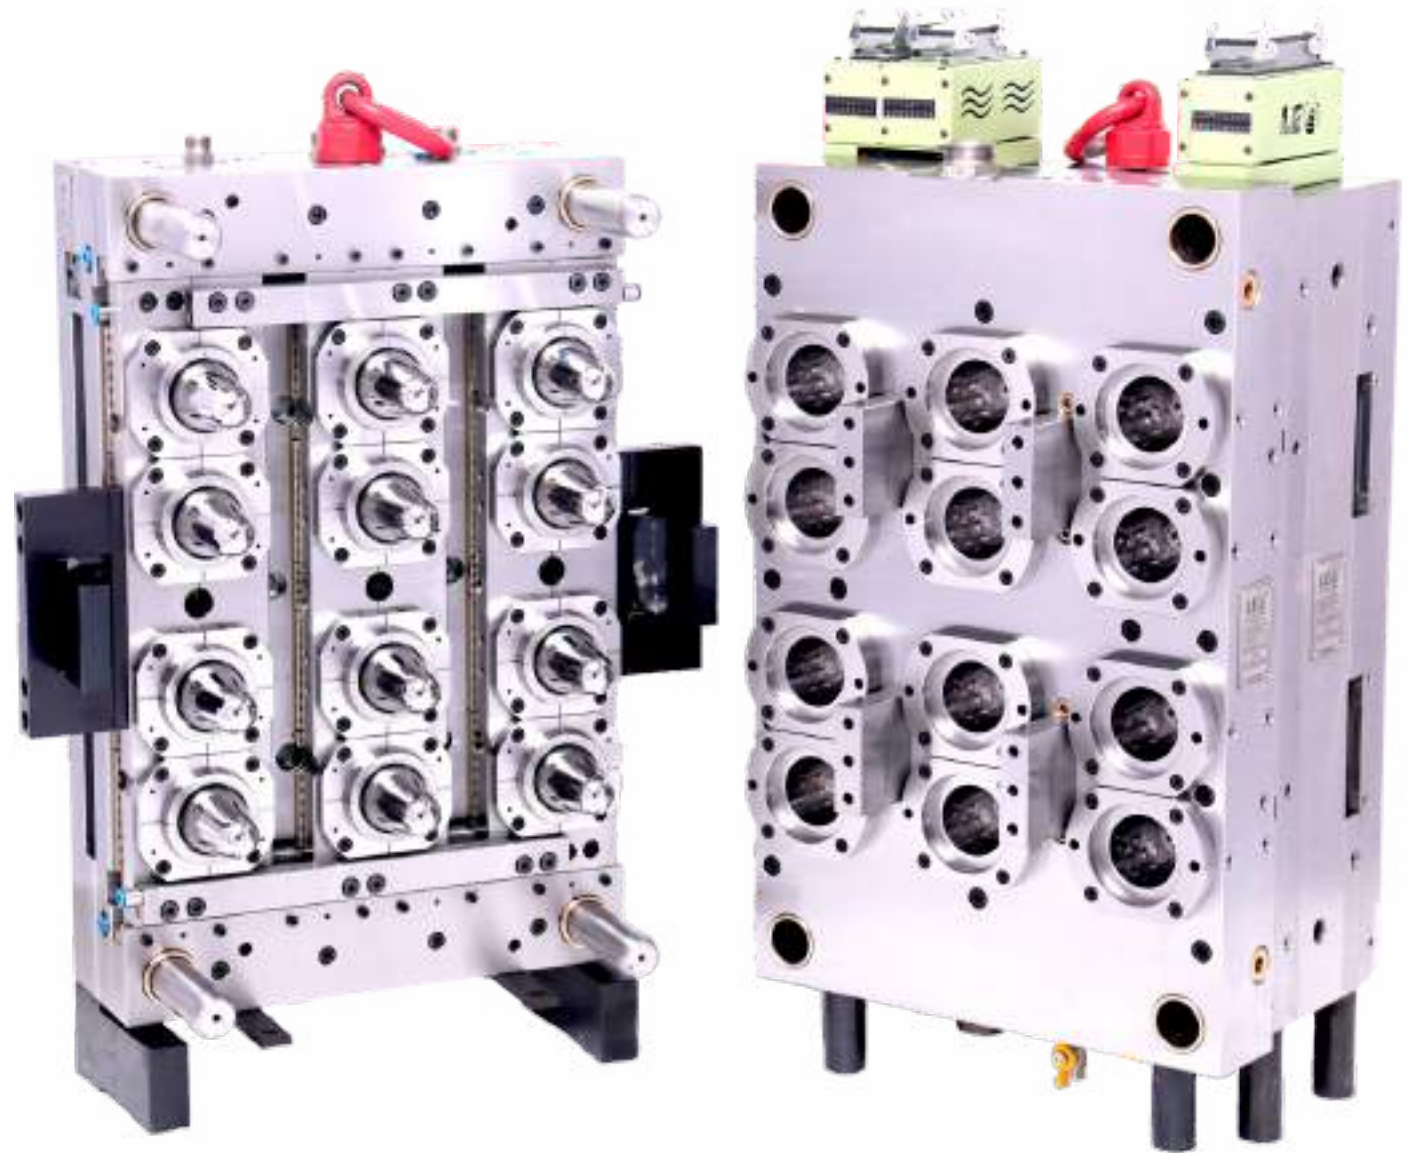

For HUSKY / SIPA / Kraussmaffe / SACMI

Leo offers complete Cold Half upto 128 Cavities for OEMs like HUSKY / SIPA / KRAUSSMAFFE/ SACMI. Our expertise is in offering replaceable Weight and Neck Change Parts.

WIDE NECK PREFORMS MOLDS

Leo has developed and mastered fully Hot Runner Molds for Wide Neck Preforms upto 24 Cavities, 250 mm neck diameter and 2.2 Kg weight per Preform

THE HALL OF FAME

"The precision in the company's name gets perfectly aligned with the company's final product"

GMS Industries Pvt Ltd.

"The complete team from Leo Precision was readily available to bring the best and most feasible mould design"

Vishal Beverages Pvt Ltd.

"Leo Precision is especially skilled at developing moulds that are first time right"

TPAC Packaging India Pvt Ltd

"Leo Precision was instrumental in developing sophisticated lotion bottle mould "

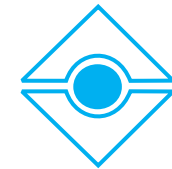

SSF Plastics India Pvt Ltd.

"Leo Precision is well renowned for their outstanding accuracy and quality"

Manjushree Technopack Ltd

"Leo Precision exceeded our expectations in developing Preform moulds, ISBM mould and Cap mould"
